

Bone & Soft Tissue

The bone and soft tissue pathology fellowship program at UPMC provides advanced training in neoplastic, inflammatory and degenerative bone and soft tissue pathology. Histomorphologic evaluation along with utilization of state of the art immunohistochemical and molecular techniques in case analysis is emphasized.

Responsibilities:

- Review of inhouse and consultation material (approximately a total of 5000 cases per year).
- Participation in weekly multidisciplinary Orthopedic tumor board.
- Undertake at least one investigational research project. Presentation at national meetings is also strongly encouraged.
- Resident and medical student teaching.
