

FELLOWSHIP

Thoracic Pathology

UPMC

LIFE CHANGING MEDICINE

Thoracic Pathology Training at UPMC

1. The program covers training in mediastinal and pleuropulmonary pathology.
2. Subspecialty training by thoracic pathologists with extensive clinical experience and research interests in interstitial lung diseases, lung transplantation, and thoracic malignancies.
3. Large and complex caseload of surgical pathology materials derived from the academic medical center at UPMC Presbyterian-Shadyside and consultation cases from the community hospitals of the UPMC Health System:
    A. Large Cardiothoracic Surgery Department with strong emphasis in neoplastic surgeries but also lung transplantation
    B. Robust clinical and research relationship with the Department of Pulmonary Medicine and the UPMC Hillman Cancer Center (thoracic oncology).
4. Extensive glass and digital study sets, essentially covering all aspects of thoracic pathology.
5. Elective rotations are available in related subspecialties such as molecular pathology and cytopathology.
6. Other benefits include vacation and conference time, as well as dedicated funding for books and travel.
